

WINTER

MULTIPLICATION MEMORY (FOURS AND FIVES FACTS)

Thank You!

I'd like to thank you for downloading this resource. I sincerely hope that it helps your kids to practice these skills in a meaningful and engaging way – and that they have fun in the process!

Much gratitude,
Brittney

Instructions

In this packet, you will find:

- Instructions for setup and how to play
- 45 double-sided memory cards (15 array cards, 15 multiplication fact cards, and 15 product cards)

Printing:

1. Print out all of the memory cards double-sided. Printing in color will look best, but printing in grayscale will look okay too.
2. Cut out all of the memory cards (there should be 45 in total).
3. If possible, laminate all of the memory cards so that they can be used for years to come.
4. Put the memory cards in an envelope or plastic bag for storage.

Playing the game:

1. Shuffle all of the memory cards together.
2. Deal all of the memory cards face-down on a flat surface.
3. The first player will flip over 3 cards.
 - If the 3 cards match (the array, the multiplication fact, and the product), the player takes all 3 cards and keeps them. Then, the player gets to take another turn.
 - If the 3 cards do not match, the player turns them over again. The player's turn is now over.
4. Play continues until all of the matches have been taken by the players. The winner is the player who took the most matches.
